

YOUR BENEFIT COMMUNICATION NEEDS

Communication Solutions are perfect for Employers who are...

- Struggling to contain costs
- Changing Benefits
- Wanting cost-effective communication bundled with health consulting services

The perceived value of benefits to employees does not always match the actual quality of benefits. At Ann Arbor Financial we understand that employees and retirees behave as consumers when making health care decisions that drive up the cost of care for themselves and the organization. Communicating benefits to meet employee needs and comply with the latest regulations is what we do.

A member of our staff will meet with you to discuss your communication priorities. Ann Arbor Financial will gather information on plan specifics, confirm the level of customization needed, and help create user-friendly, legally compliant documents. These solutions are part of Ann Arbor Financial's benefit consulting that is tailored to your needs.
